

Christ Church Girls students receive early Christmas gifts

SANTA Claus left the North Pole and paid an early visit to the Christ Church Girls School on Wednesday where he joined members of Sandals Barbados' team to spread Christmas cheer.

This special visit, which was hosted by the Sandals Foundation, was part of Sandals Barbados' annual Christmas Toy Drive. During this initiative, Saint Nicholas not only interacted with students from across the classes, he delivered gifts that were gladly accepted by the girls.

Public Relations Manager for Sandals Barbados, David Hinds told the media that the pupils of the Christ Church Girls Schools were among the first receiving presents from the Foundation on the day. He explained that Santa Claus and members of the Foundation were also visiting

the Milton Lynch Primary School and St. Lawrence Primary School to deliver gifts to students.

He indicated that the Christmas Toy Drive is done yearly at all Sandals properties across the region.

"Every year we do this and this is through the Sandals Foundation, which is our charity arm of the company. This goes on in every territory that we have a hotel operating. So every year around Christmas, we donate probably a thousand toys to the various schools which we adopt. This year we are doing Christ Church Girls School, Milton Lynch Primary and the St. Lawrence Primary School, which is our first adopted school. We also bring a cake and little treats for the kids. It is just part of our way of saying thanks for the year by treating the kids and the teachers as well." (MG)
